Access to justice is crucial for guaranteeing children’s right and protection but legal systems and the social environment often make it difficult for children to obtain redress for rights violations. What challenges and barriers exist in different countries across Europe and beyond, and are there effective and sustainable solutions that can be imported in other jurisdictions?

The Bingham Centre for the Rule of Law is organising an evening expert event where professionals and specialists on child related issues and on the law and practice related to child justice will share their experience on the main challenges in this area and will discuss and comment examples of good practice.

The event is convened by the Bingham Centre and is hosted by the Law Society of England and Wales. It is part of a project funded by the International Bar Association (IBA) through its Access to Justice and Legal Aid Committee
