Although international courts and tribunals face similar procedural issues in practice, they are sometimes handled differently depending on whether the dispute is between States, investors and States, or private parties.

This event will feature judges and practitioners who will address selected procedural issues from the perspective of multiple types of international dispute resolution.

The panel chaired by Lord Mance will explore different ways each form of dispute resolution may learn from techniques and developments in the others.

The issues discussed will be:

- the independence and impartiality of members of courts and tribunals
- their approach to evidence and fact-finding
- relative degrees of confidentiality and transparency of their proceedings, and
- dealing with absent parties, absent arbitrators and absent witnesses.

Speakers

- **Lord Mance**, Supreme Court of the United Kingdom (chair)
- **Judge Joan Donoghue**, International Court of Justice
- **Ben Juratowitch QC**, Freshfields Bruckhaus Deringer
- **Judith Levine**, Senior Legal Counsel, Permanent Court of Arbitration
- **Alison Macdonald QC**, Matrix Chambers

This BIICL ITF event is convened by **Prof Yarik Kryvoi**, Senior Research Fellow in International Economic Law and Director of the [Investment treaty Forum](#).
