The British Institute of International and Comparative Law (BIICL)

The British Institute of International and Comparative Law (BIICL) exists to develop and advance the understanding of international and comparative law in the UK and around the world, and to promote the rule of law in national and international affairs. Through our work we seek to improve decision-making which will help to make the world a better place and have a positive impact on people's daily lives.

BIICL has been making an influential impact since its foundation in 1958, but it can trace its history back even further to 1894. It is one of the very few independent legal bodies of its type in the world, as it is unaffiliated to any university, is a charity/not-for-profit organisation and is non-partisan.

BIICL Undertakes 5 Key Activities

- Applied legal research
- Informed and diverse events and discussions
- Effective and capacity-building training
- Publication of world leading legal titles
- Fostering a diverse community of scholars and practitioners through its membership

BIICL is now a world-leading independent research body in international and comparative law, and the rule of law. We produce high-quality applied research based on strong conceptual foundations which influences law and policy-making. The application and wider dissemination of this research is then promoted through publications, events and training.
